

Focus on Pain Management: 2024 Protocol Updates

Sponsored by Elanco

Program Overview

Join us for an insightful webinar as we explore the latest advancements in veterinary pain management.

We'll share new, expert treatment guidelines for effectively managing canine osteoarthritis and explore a novel, long-acting transdermal buprenorphine for perioperative pain control in feline patients.

Kimberly Bencivenga, DVM

Dr. Kimberly Bencivenga earned a BS in Biology from Duquesne University in 2007, followed by her DVM at the University of Missouri, College of Veterinary Medicine in 2012. She completed a small animal rotating internship at The Ohio State University College of Veterinary Medicine.

Dr. Bencivenga worked as an emergency veterinarian at specialty and referral hospitals in both North Carolina and Maryland. In addition to her primary emergency role, she performed small animal general practice relief work, as well as work in virtual medicine. In 2018 she joined Elanco as a Regional Consulting Veterinarian.
