

Vaccines simplified. Happiness guaranteed.

We believe that providing an easier experience for you helps provide a happier clinic experience for cats. That's why we've made our product packaging and names easier to understand, and created innovations to make cats more comfortable.

Science behind the smile

- Exclusive process for creating our highly purified ½ mL ULTRA line of vaccines
- Designed to reduce vaccination reactions associated with unwanted protein and debris

Half the volume, twice the comfort

- Lower volume for easier and quicker administration on distal limbs for improved patient experiences
- TruFel™ Ultra HC2P Hybrid — the first and only non-adjuvanted, low-volume FVRCP vaccine with exclusive dual-strain calicivirus protection

Fewer needle sticks

- Many Tru core and lifestyle vaccines are available as combinations, offering solutions for any protocol
- Convenient combinations mean fewer sticks
- Easier on cats and vets alike

Happiness Guarantee

- We don't just stand behind our cat vaccine products — we guarantee their efficacy.
- If our products fail to live up to your or your patients' expectations, we offer reimbursement of up to 100% of standard, reasonable diagnostic and treatment costs up to \$5,000.
