Digital & Social Toolkit

Social media is a great way to engage with clients outside the walls of your clinic. Share helpful tips about common pet health issues, insights about new products and trends, or simply keep pet parents involved in clinic news with fresh content.

This digital and social toolkit contains educational posts about parasite protection and Credelio Quattro that you can share with your clients, letting them know your clinic has their dogs' best interests at heart. The posts below, starting on page 3, contain the words and images you need to get started.

ATTENTION: Do not alter the copy or imagery in any way without prior approval from Elanco.

How to Create a Facebook Post

Using your phone or desktop:

1. Select "Create a post" on your clinic's Facebook page.
2. Copy and paste the provided copy into the space on your new post.
3. Select the "Photo/video" option and attach the provided image.
4. Be sure to add alt text by clicking the ellipsis in the upper right corner of the image.
5. Double-check that all text tagging another account is active; this is indicated by a light blue highlight over the top of the tagged name.
6. Copy and paste the provided copy into your new post and hit "Publish." Hashtags are not necessary on Facebook.

How to create an Instagram Post

Using your phone or desktop:

1. Select the "+" button at the bottom of the mobile app or select "+ Create" from the left-side navigation on your desktop to create a post on your clinic's Instagram page.
2. Choose the selected image for the post; do not apply a filter, and proceed to the caption. To add alt text to the image, select "advanced settings" at the bottom of the screen before posting for greater accessibility.

3. Copy and paste the provided copy into your new post and hit "Share."
4. To maximize character count, hashtags should be entered into the first comment of the Instagram post and NOT the copy.

PLEASE INCLUDE THE IMPORTANT SAFETY AND LEGAL INDICATIONS IN THE COPY OF ALL POSTS, INCLUDING LINKS AND TAGS. THIS INFORMATION SHOULD COME AFTER THE SUGGESTED POST COPY AND ANY INSTAGRAM HASHTAGS.

NOTE ON PRODUCT COMPLAINTS: If you receive comments on posts with a product complaint, alert Elanco by contacting us at 1-888-545-5973. If you do not want to monitor discussion, you can turn off comments for the provided posts.

TEXT & IMAGE ASSETS: Images can be found within the zipped folder provided for download.

Introduction

Facebook Copy with Rebate

Protect your furry friend from head to tail with the only monthly chewable that offers the broadest* parasite protection against six types of parasites: ticks, fleas, heartworms, roundworms, hookworms† and tapeworms. Schedule your next vet visit with us to learn more about this new parasite protection. Don't delay – get \$30 off of 6 doses and \$65 off of 12 doses.

Credelio Quattro, Elanco and the diagonal bar logo are trademarks of Elanco or its affiliates. PM-US-24-2087

Indications: Credelio Quattro is indicated for the prevention of heartworm disease and the treatment and control of roundworm, hookworm† and tapeworm infections. Credelio Quattro kills adult fleas and is indicated for the treatment and prevention of flea infestations and the treatment and control of tick infestations for 1 month in dogs and puppies 8 weeks of age and older and weighing 3.3 pounds or greater.

Important Safety Information: Lotilaner, an ingredient in Credelio Quattro, belongs to the isoxazoline class and has been associated with neurologic adverse reactions like tremors, ataxia, and seizures even in dogs without a history of seizures. Use with caution in dogs with a history of seizures or neurologic disorders. Dogs should be tested for existing heartworm infections before Credelio Quattro administration as it is not effective against adult *D. immitis*. The safe use in breeding, pregnant, or lactating dogs has not been evaluated. The most frequently reported adverse reactions in clinical trials were vomiting and diarrhea. For complete safety information, please see Credelio Quattro product label or ask your veterinarian.

*Based on the number of parasite types covered in a chewable that targets ticks, fleas, heartworm disease, roundworms, hookworms (*Uncinaria stenocephala*), and tapeworms

†*Uncinaria stenocephala*
