

# Partnering with Elanco

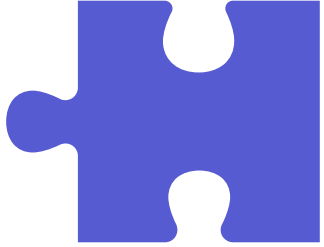

***Elanco***

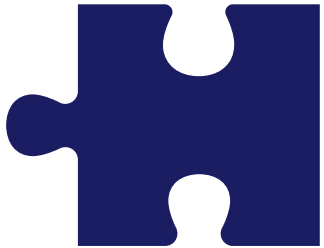

# Why Partner With Elanco....

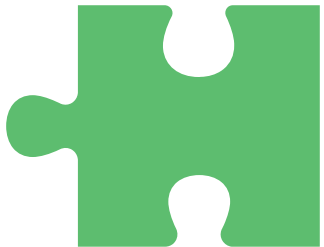

# Benefits of Partnering for Human Health Companies

World class efficacy and clinical operations teams to design and execute impactful research and development studies

Rapid validation of therapeutic candidates in natural disease providing a deeper understanding of MOA, PK/PD, Safety and Toxicity.

Validate critical hypotheses in support of fund raising while also creating alternative value capture opportunities

Opportunity to reposition drug candidates that have challenges reaching the market for human indications

# Areas of Interest – By Species & Area

**Infectious Diseases**

**Enteric / Gut Health**

**Metabolic**

**Parasite Control**

**Sustainability**

**Food Safety**

**Efficiency / Performance**

**Animal Welfare**

**Precision Livestock Farming solutions**

**Parasite Control**

**Immunology / Inflammation**

**Pain / Osteoarthritis**

**Chronic Diseases**

**Connected Care Solutions**

**Food Animal**

**Pet Health**

# Areas of Interest – By Platform

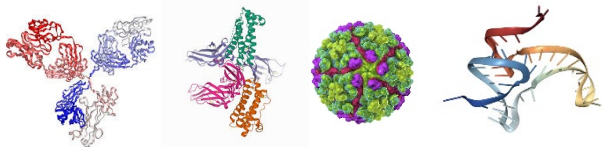

## Platforms

### Biopharma

- 1 Biotherapeutics
- 2 Rationally Engineered Vaccines
- 3 RNA/DNA delivered Biologics

#### Novel Actives

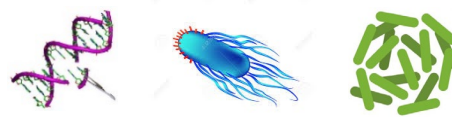

#### Products

### Microbiome

- 4 Microbiome Modulation
- 5 Microbial Delivery Platforms
- 6 Microbes and Drug Discovery

### Chemistry

- 7 Parasitocides
- 8 Therapeutics
