

Elanco Global Headquarters Grand Opening Ceremony

October 1, 2025

About Elanco Animal Health Global Headquarters

About Elanco Animal Health Global Headquarter Location

When building our new Global HQ, we remained focused on one thought: creating a destination for our team, not an obligation. This is about more than a building. It's about what we're building, together: a future where innovation thrives and community flourishes. We are committed to going beyond, being more than the company that moved in – a neighbor, helping neighbors – making our community stronger, healthier and happier for all.

Elanco purposefully chose to redevelop an idle space instead of developing grassland or greenspace. Before Elanco's Global Headquarters, the site housed the General Motors Stamping Plant, which opened in the 1930s and closed in 2011. The closure left behind more than 100 acres of industrial land in the heart of Indianapolis' Valley Neighborhood.

The site is mere steps away from Elanco's birthplace as a division of Lilly 70 years ago.

With us today...

President, HR,
Communications and
Administration

Meet Indy!

Indy Medical Mutts

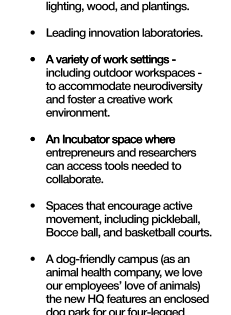

Say hello to Indy, the amazing pup from Medical Mutts! Once a shelter dog looking for his forever home, Indy found his true calling and is now on an incredible journey to become an extraordinary service dog. He's currently in training to be the dedicated companion to his wonderful handler, Kyla, learning how to provide life-changing support for her.

Home of the OneHealth Innovation District

Our new home is a strategic hub for One Health solutions and the first anchor in the OneHealth Innovation District. We're here to connect, innovate, and solve global challenges, right from the heart of Indianapolis. Making life better for animals, making life better for us all.

Elanco Impact

Our commitment goes beyond our walls. We're excited to be a neighbor, actively partnering with community organizations to create better outcomes with commitments that include:

- Nutrition Secure Indy – improving community outcomes by improving the nutrition security for 250 families.
- IndyHumane and other animal care groups to improve the health and wellbeing of local pets.

2024 Impact

26,067 volunteer hours

\$185,760 employee donations

1,011 unique causes supported globally

More About Our Global Headquarters

- 250,000 square foot, six story building.
- Designed to promote well-being with an emphasis on natural lighting, wood, and plantings.
- Leading innovation laboratories.
- A variety of work settings - including outdoor workspaces - to accommodate neurodiversity and foster a creative work environment.
- An Incubator space where entrepreneurs and researchers can access tools needed to collaborate.
- Spaces that encourage active movement, including pickleball, Bocce ball, and basketball courts.
- A dog-friendly campus (as an animal health company, we love our employees' love of animals) the new HQ features an enclosed dog park for our four-legged coworkers.
- A wellness center with an onsite gym, nutrition coaching and a visiting nurse practitioner.
- An on-site cafe and coffee shop, serving Tinker Street coffee, a local roaster.
- Enhanced interior environmental quality incorporating daylight, plantings, active circulation paths, and an air quality monitoring system to ensure adequate fresh air.
- Native plantings outdoors to build long-term resilience and enhance storm water management.
- LEED Certification, meaning the building met rigorous sustainability standards including efficiency in water and energy use, reduced waste, improved indoor environmental quality, and use of sustainable materials.

After the ribbon drops, confetti falls and the doors open, you're welcome to join us for a tour of the facility.
