**READ ENTIRE LABEL BEFORE USE**  
**DANGER**

Toxic if swallowed or if inhaled. May cause an allergic skin reaction. Causes serious eye irritation. Suspected of causing genetic defects. Suspected of damaging fertility or the unborn child. Causes damage to organs through prolonged or repeated exposure.

**HANDLING PRECAUTIONS:** Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing, eye protection, face protection. Use only outdoors or in a well-ventilated area. Do not breathe vapor. Do not eat, drink or smoke when using this product. Wash thoroughly after handling. Contaminated work clothing should not be allowed out of the workplace. Store locked up.

**FIRST AID:** IF EXPOSED OR CONCERNED: Get medical advice or attention. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CENTER or doctor. IF SWALLOWED: Immediately call a POISON CENTER or doctor. Rinse mouth. Take off contaminated clothing and wash it before reuse. IF ON SKIN: Wash with plenty of water. If skin irritation or rash occurs: Get medical advice or attention. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. If eye irritation persists: Get medical advice or attention. For advice contact the National Poisons Centre 0800 POISON (0800 764 766).

**ENVIRONMENTAL PROTECTION:** Very toxic to aquatic life with long lasting effects. Avoid release to the environment. Collect spillage.

**EMERGENCY RESPONSE:** Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. For specialist advice in an emergency call CHEMTREC 0800 425 459. If additional hazard information is required, refer to the Safety Data Sheet. For a copy please go to [www.elanco.co.nz](http://www.elanco.co.nz).

**DISPOSAL:** Preferably dispose of product by use. Otherwise dispose of product and packaging at an approved landfill/facility. Triple rinse empty container. Recycle empty rinsed container at an approved recycling centre. Otherwise puncture or crush empty container and dispose of at an approved landfill/facility. Do not use container for any other purpose.

Also contains triacetin ≥30-≤60% w/w and stabilised glycerol formal ≥10-≤30% w/w.

**DESCRIPTION:** OUTLAW is a broad spectrum endectocide. It contains abamectin, a member of the macrocyclic lactone (avermectin/milbemycin) family. It also contains levamisole base, a member of the imidazothiazole class of anthelmintics, with efficacy against internal parasites sensitive to this family, especially lungworm and *Cooperia*.

**INDICATIONS:** For the treatment and control of mature and immature stages of internal parasites, including endectocide-resistant strains, and lungworm in all types of cattle.

**Gastrointestinal worms:** *Ostertagia ostertagi*\*, *Ostertagia lyrata*\*, *Cooperia oncophora*\*, *Cooperia sumabada*\*, *Cooperia punctata*\*, *Trichostrongylus longispicularis*, *Trichostrongylus axei*, and mature *Trichuris* spp. (\*Includes inhibited L4 stage larvae).

OUTLAW is also highly effective in the treatment and control of mature and immature strains of *Cooperia* spp. resistant to the endectocides (including eprinomectin and doramectin).

Levamisole is also very active against susceptible benzimidazole-resistant strains.

**Lungworm:** Adult and immature *Dictyocaulus viviparus*.

**External Parasites:** For the treatment and control of sucking lice in cattle, including: *Linognathus setosus*, *Haematopinus eurysternus*, *Solenopotes capillatus*.

OUTLAW is effective against all internal parasites sensitive to either or both active families.

Resistance can develop to any anthelmintic. Ask your local veterinary practitioner or animal health advisor for recommended parasite management practices for your area to reduce the development of resistance. It is advisable that a resistance test be conducted regularly when using any parasite treatment.

**DIRECTIONS FOR USE:** By law the user must take due care, obtaining expert advice when necessary, to avoid unnecessary pain and distress when using the product other than as directed on the label.

For external use only. Shake well before use. Correct drenching technique should be used. A representative sample of animals should be weighed before treatment. Draft animals into lines of similar body weight, then dose according to the weight of the heaviest animal in the line.

Registered pursuant to the ACVM Act 1997, No. A010375
