

SAFETY DATA SHEET

FLEXIDINE

Section 1. Identification

Product identifier	EXIDINE	
Product code	2200008231	
Chemical identity	ats and Glyceridic oils, vegetable, iodinated	
Other means of identification	exidine iodised Oil Injection; FLEXIDINE FLOCK PACK 8 X 250ML; 8423 5582333; 86582341	36144;
Relevant identified uses of t	ostance or mixture and uses advised against	
Identified uses	eterinary product.	
Uses advised against	one known.	
Company Name	lanco New Zealand 06 Wiri Station Road, Manukau, Auckland 2140	
Telephone number	64 0800 352 626	
Emergency telephone number	300 446 121 (Adverse Events Local Number) HEMTREC International: 00 1 703-527-3887 (24 hours) HEMTREC: +64 9-801 0034 (Local) HEMTREC: 0800 425 459 (Freephone)	
Email	anco_sds@elancoah.com	

Section 2. Hazards identification

HSNO Approval Number	: Not available.
HSNO Group Standard	: Not available.
HSNO Classification	: Not classified.

This material is not classified as hazardous according to criteria in the Hazardous Substances (Hazard Classification) Notice 2020.

This material is not classified as DANGEROUS GOODS according to criteria in New Zealand Standard 5433:2020 Transport of Dangerous Goods on Land.

GHS label elements		
Signal word	:	No signal word.
Hazard statements	:	No known significant effects or critical hazards.
Precautionary statements		
Prevention	:	Not applicable.
Response	1	Not applicable.
Storage	1	Not applicable.
Disposal	1	Not applicable.
Other hazards which do not result in classification	1	None known.

Section 3. Composition/information on ingredients

Substance/mixture : Substance		
Ingredient name	% (w/w)	CAS number
Fats and Glyceridic oils, vegetable, iodinated	100	8001-40-9

There are no additional ingredients present which, within the current knowledge of the supplier and in the concentrations applicable, are classified as hazardous to health or the environment and hence require reporting in this section.

Occupational exposure limits, if available, are listed in Section 8.

Section 4. First aid measures

Description of necessary first aid measures			
Inhalation		emove victim to fresh air and keep at rest in a position comfortable for breathing. et medical attention if symptoms occur.	
Ingestion	pe ur	/ash out mouth with water. If material has been swallowed and the exposed erson is conscious, give small quantities of water to drink. Do not induce vomiting nless directed to do so by medical personnel. Get medical attention if symptoms ccur.	
Skin contact		ush contaminated skin with plenty of water. Remove contaminated clothing and noes. Get medical attention if symptoms occur.	
Eye contact	еу	nmediately flush eyes with plenty of water, occasionally lifting the upper and lower yelids. Check for and remove any contact lenses. Get medical attention if irritation ccurs.	
Most important symptoms/e	fects,	, acute and delayed	
Potential acute health effec	<u>ts</u>		
Inhalation	: No	o known significant effects or critical hazards.	
Ingestion	: No	o known significant effects or critical hazards.	
Skin contact	: No	o known significant effects or critical hazards.	
Eye contact	: No	o known significant effects or critical hazards.	
Over-exposure signs/symp	<u>oms</u>		
Inhalation	: No	o specific data.	
Ingestion	: No	o specific data.	
Skin	: No	o specific data.	
Eyes	: No	o specific data.	
Indication of immediate medical attention and special treatment needed, if necessary			
Specific treatments	: No	o specific treatment.	
Notes to physician		reat symptomatically. Contact poison treatment specialist immediately if large untities have been ingested or inhaled.	
Protection of first-aiders	: No	o action shall be taken involving any personal risk or without suitable training.	
See toxicological information	ı (Sec	ction 11)	

Section 5. Firefighting measures

Extinguishing media		
Suitable	lse an extinguishing agent suitable for the surrounding fire.	
Not suitable	lone known.	
Specific hazards arising from the chemical	n a fire or if heated, a pressure increase will occur and the container ma	y burst.
Hazardous thermal decomposition products	lo specific data.	
Hazchem code	lot available.	
Special precautions for fire- fighters	Promptly isolate the scene by removing all persons from the vicinity of the nere is a fire. No action shall be taken involving any personal risk or with uitable training.	
Special protective equipment for fire-fighters	ire-fighters should wear appropriate protective equipment and self-contareathing apparatus (SCBA) with a full face-piece operated in positive pro- node.	

Section 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

For non-emergency	: No action shall be taken involving any personal risk or without suitable training.
personnel	Evacuate surrounding areas. Keep unnecessary and unprotected personnel from
personner	entering. Do not touch or walk through spilt material. Put on appropriate personal protective equipment.

Section 6. Accidental release measures

For emergency responders	: If specialised clothing is required to deal with the spillage, take note of any information in Section 8 on suitable and unsuitable materials. See also the information in "For non-emergency personnel".
Environmental precautions	: Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers. Inform the relevant authorities if the product has caused environmental pollution (sewers, waterways, soil or air).
Methods and material for con	tainment and cleaning up
Small spill	: Stop leak if without risk. Move containers from spill area. Dilute with water and mop up if water-soluble. Alternatively, or if water-insoluble, absorb with an inert dry material and place in an appropriate waste disposal container. Dispose of via a licensed waste disposal contractor.
Large spill	: Stop leak if without risk. Move containers from spill area. Prevent entry into sewers, water courses, basements or confined areas. Wash spillages into an effluent treatment plant or proceed as follows. Contain and collect spillage with non-combustible, absorbent material e.g. sand, earth, vermiculite or diatomaceous earth and place in container for disposal according to local regulations (see Section 13). Dispose of via a licensed waste disposal contractor. Note: see Section 1 for emergency contact information and Section 13 for waste disposal.

Section 7. Handling and storage

Protective measures	
Protective measures	: Put on appropriate personal protective equipment (see Section 8).
Advice on general occupational hygiene	: Eating, drinking and smoking should be prohibited in areas where this material is handled, stored and processed. Workers should wash hands and face before eating, drinking and smoking. Remove contaminated clothing and protective equipment before entering eating areas. See also Section 8 for additional information on hygiene measures.
Conditions for safe storage, including any incompatibilities	: Store in accordance with local regulations. Store in original container protected from direct sunlight in a dry, cool and well-ventilated area, away from incompatible materials (see Section 10) and food and drink. Keep container tightly closed and sealed until ready for use. Containers that have been opened must be carefully resealed and kept upright to prevent leakage. Do not store in unlabelled containers. Use appropriate containment to avoid environmental contamination. See Section 10 for incompatible materials before handling or use.

Section 8. Exposure controls/personal protection

Date of revision :23 May 2023

Control parameters

Version :0.05

Occupational exposure limits

Ingredient name			Exposure limits
None.			
Biological exposure i	ndices		L
No exposure indices k	nown.		
Appropriate engineer controls	ing :	Good general ventilation contaminants.	should be sufficient to control worker exposure to airborne
Environmental expos controls	ure :	Emissions from ventilation or work process equipment should be checked to ensure they comply with the requirements of environmental protection legislation. In some cases, fume scrubbers, filters or engineering modifications to the process equipment will be necessary to reduce emissions to acceptable levels.	
ndividual protection n	<u>neasures</u>		
Hygiene measures	:	eating, smoking and usir Appropriate techniques s Wash contaminated clot	and face thoroughly after handling chemical products, before ng the lavatory and at the end of the working period. should be used to remove potentially contaminated clothing. hing before reusing. Ensure that eyewash stations and to the workstation location.
roduct name : F	LEXIDINE	-	NZ : ENGLISH

Section 8. Exposure controls/personal protection

Eye/face protection	:	Safety eyewear complying with an approved standard should be used when a risk assessment indicates this is necessary to avoid exposure to liquid splashes, mists, gases or dusts. If contact is possible, the following protection should be worn, unless the assessment indicates a higher degree of protection: safety glasses with side-shields.
Skin protection		
Hand protection	:	Chemical-resistant, impervious gloves complying with an approved standard should be worn at all times when handling chemical products if a risk assessment indicates this is necessary.
Body protection	:	Personal protective equipment for the body should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Other skin protection	:	Appropriate footwear and any additional skin protection measures should be selected based on the task being performed and the risks involved and should be approved by a specialist before handling this product.
Respiratory protection	:	Based on the hazard and potential for exposure, select a respirator that meets the appropriate standard or certification. Respirators must be used according to a respiratory protection program to ensure proper fitting, training, and other important aspects of use.

Section 9. Physical and chemical properties and safety characteristics

The conditions of measurement of all properties are at standard temperature and pressure unless otherwise indicated.

Appearance

Physical state	1	Liquid.
Colour	:	Yellow. Transparent
Odour	1	Characteristic.
Odour threshold	1	Not available.
рН	:	Not available.
Melting point/freezing point	:	Not available.
Boiling point, initial boiling point, and boiling range	:	Not available.
Flash point	1	Not available.
Evaporation rate	1	Not available.
Flammability	1	Not available.
Lower and upper explosion limit/flammability limit	:	Not available.
Vapour pressure	:	Not available.
Relative vapour density	1	Not available.
Relative density	1	Not available.
Solubility(ies)	:	Not available.
Solubility in water	:	Not available.
Partition coefficient: n- octanol/water	:	Not available.
Auto-ignition temperature	1	Not available.
Decomposition temperature	4	Not available.
Viscosity	1	Not available.
Flow time (ISO 2431)	1	Not available.
Particle characteristics		
Median particle size	1	Not applicable.

Section 10. Stability and reactivity

	5
Reactivity	: No specific test data related to reactivity available for this product or its ingredients.
Chemical stability	: The product is stable.
Possibility of hazardous reactions	: Under normal conditions of storage and use, hazardous reactions will not occur.
Conditions to avoid	: No specific data.
Incompatible materials	: No specific data.
Hazardous decomposition products	 Under normal conditions of storage and use, hazardous decomposition products should not be produced.

Section 11. Toxicological information

Inhalation	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Eye contact	: No known significant effects or critical hazards.

Symptoms related to the physical, chemical and toxicological characteristics

Inhalation	: No specific data.
Ingestion	: No specific data.
Skin contact	: No specific data.
Eye contact	: No specific data.

Delayed and immediate effects as well as chronic effects from short and long-term exposure

Acute toxicity

Not available.

Irritation/Corrosion

Not available.

Sensitisation

Not available.

Potential chronic health effects

General	: No known significant effects or critical hazards.
Inhalation	: No known significant effects or critical hazards.
Ingestion	: No known significant effects or critical hazards.
Skin contact	: No known significant effects or critical hazards.
Eye contact	: No known significant effects or critical hazards.
Carcinogenicity	: No known significant effects or critical hazards.
Mutagenicity	: No known significant effects or critical hazards.
Teratogenicity	: No known significant effects or critical hazards.
Developmental effects	: No known significant effects or critical hazards.
Fertility effects	: No known significant effects or critical hazards.
Chronic toxicity	
Not available.	

Carcinogenicity

Not available.

Section 11. Toxicological information

Mutagenicity

Not available.

Teratogenicity

Not available.

Reproductive toxicity

Not available.

Specific target organ toxicity (single exposure)

Not available.

Specific target organ toxicity (repeated exposure) Not available.

Aspiration hazard

Not available.

Numerical measures of toxicity

Acute toxicity estimates

N/A

Section 12. Ecological information

	Ec	oto	xic	ity
--	----	-----	-----	-----

: No known significant effects or critical hazards.

Aquatic and terrestrial toxicity Not available.

Persistence/degradability

Bioaccumulative potential

Not available.

<u>Mobility in soil</u>

Soil/water partition coefficient (Koc)

: Not available.

Other adverse effects : No known significant effects or critical hazards.

Section 13. Disposal considerations

Disposal methods : The generation of waste should be avoided or minimised wherever possible. Disposal of this product, solutions and any by-products should at all times comply with the requirements of environmental protection and waste disposal legislation and any regional local authority requirements. Dispose of surplus and non-recyclable products via a licensed waste disposal contractor. Waste should not be disposed of untreated to the sewer unless fully compliant with the requirements of all authorities with jurisdiction. Waste packaging should be recycled. Incineration or landfill should only be considered when recycling is not feasible. This material and its container must be disposed of in a safe way. Empty containers or liners may retain some product residues. Avoid dispersal of spilt material and runoff and contact with soil, waterways, drains and sewers.

Section 14. Transport information

Section 14. Transport information			
	New Zealand - Land - road/ railway	IMDG	ΙΑΤΑ
UN number	Not regulated.	Not regulated.	Not regulated.
UN proper shipping name	-	-	-
Transport hazard class(es)	-	-	-
Packing group	-	-	-
Environmental hazards	No.	No.	No.

Special precautions for user : Transport within user's premises: always transport in closed containers that are upright and secure. Ensure that persons transporting the product know what to do in the event of an accident or spillage.

Transport in bulk according : Not available. to IMO instruments

Section 15. Regulatory information

HSNO Approval Number	: Not available.
HSNO Group Standard	: Not available.
HSNO Classification	: Not classified.
ACVM No.	: A007866
Inventory list	
New Zealand	: This material is listed or exempted.

Section 16. Other information

<u>History</u>	
Date of issue/Date of revision	: 5/23/2023
Date of previous issue	: 3/1/2023
Version	: 0.05
Key to abbreviations	 ADG = Australian Dangerous Goods ADR = The European Agreement concerning the International Carriage of Dangerous Goods by Road ATE = Acute Toxicity Estimate BCF = Bioconcentration Factor GHS = Globally Harmonized System of Classification and Labelling of Chemicals IATA = International Air Transport Association IBC = Internediate Bulk Container IMDG = International Maritime Dangerous Goods LogPow = logarithm of the octanol/water partition coefficient MARPOL = International Convention for the Prevention of Pollution From Ships, 1973 as modified by the Protocol of 1978. ("Marpol" = marine pollution) RID = The Regulations concerning the International Carriage of Dangerous Goods by Rail SGG = Segregation Group UN = United Nations
References	: Not available.
Indicates information that	at has changed from previously issued version.
Notice to reader	

Section 16. Other information

As of the date of issuance, we are providing available information relevant to the handling of this material in the workplace. All information contained herein is offered with the good faith belief that it is accurate. THIS SAFETY DATA SHEET SHALL NOT BE DEEMED TO CREATE ANY WARRANTY OF ANY KIND (INCLUDING WARRANTY OF MERCHANT ABILITY OR FITNESS FOR A PARTICULAR PURPOSE). In the event of an adverse incident associated with this material, this safety data sheet is not intended to be a substitute for consultation with appropriately trained personnel. Nor is this safety data sheet intended to be a substitute for product literature which may accompany the finished product.
