# REDUCING LUMPS AND BUMPS

## REDUCING LUMPS AND BUMPS

- Proper vaccination location
- Size and length of needle
  - 16 gauge x 1.5 inches
- Cleanliness (dry, free from mud and manure)
- Change needles often to reduce the use of burred needles
- Proper restraint to reduce tissue damage
- Nutritional status of herd

# INCREASE RESISTANCE TO SCOURS

Follow label directions for timing and administration of Scour Bos®

Good colostrum management

Adequate cow herd nutrition and health

Control of environmental contamination

Proper animal flow and density through wintering, calving and nursery areas

Plan ahead for herd expansion; facilities, feed and biosecurity

# LOWER THE ENVIRONMENTAL CHALLENGE
