

MORE COVERAGE AND FLEXIBILITY? TRUST THE BOS TO HAVE YOUR BACK.

Elanco

Scour Bos[®]

Scour Bos[®] provides comprehensive protection against up to nine antigens for broad-spectrum coverage against the leading causes of scours with the most flexible administration schedule on the market.

COMPREHENSIVE PROTECTION

- Scour Bos provides broad-spectrum protection against up to nine pathogens and has more coverage than any other scours vaccine
- Scour Bos includes more *E. coli* and rotavirus antigens than any of the competition
- Xtend[®] III adjuvant provides long-lasting immune system stimulation that helps release antigens over time

FLEXIBLE ADMINISTRATION

- Scour Bos has the widest window for administration on the market and can be administered up to four months pre-calving, giving producers more convenience and flexibility
- Ask your herd health veterinarian about how easy it is to integrate Scour Bos into your herd health protocol

RELIABLE RESULTS

- A study showed that 97% of veterinarians who used Scour Bos said it met or exceeded expectations despite severe weather¹
- Producers can improve their bottom line with comprehensive protection against a leading cause of calf mortality
- Backed by the Elanco Cattle Vaccine Promise[™]

WHEN IT COMES TO SUPPORT, SCOUR BOS GIVES YOU MORE.

9 ANTIGENS

3-WAY
ROTAVIRUS

4 *E. COLI*
ISOLATES

FOR DEFENSE AGAINST SCOURS, YOU NEED SUPPORT FROM THE BOS THAT UNDERSTANDS WHAT YOU'RE DEALING WITH.

Scour Bos® delivers the most comprehensive protection and flexibility. Enjoy peace of mind, knowing your calves are protected against a leading cause of calf mortality.
