C.B.G 37.5TM

Sterile Metabolic Solution

DIRECTIONS FOR USE:
By law the user must take due care, obtaining expert advice when necessary, to avoid unnecessary pain and distress when using the product other than as directed on the label.

Do not remove pack from overpouch until just before use. Connect the 10mm diameter of needle connector at the end of delivery tube and connect sterile needle to provide.

Inject up to 500mL by the **slow** intravenous route. Intravenous use of metabolic solutions may be hazardous to the animal and advice from a veterinary surgeon should be sought before administration.

Alternatively contents may be injected by the subcutaneous route (under the skin) into the abdominal region. Repeat if necessary after 6-8 hours. Massage to facilitate absorption. Repeat if necessary after 6-8 hours. If complete recovery does not occur seek veterinary advice.

READ ENTIRE LABEL BEFORE USE

WARNING:
Susceptible of damaging fertility or the unborn child

HANDLING PRECAUTIONS
Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Wear protective gloves, protective clothing, eye protection, face protection. Store locked up.

FIRST AID
If exposed or concerned: Get medical advice or attention: For advice contact the National Poisons Centre 0800 POISON (0800 764 766)

EMERGENCY RESPONSE
Stop leak, if without risk. Move containers from spill area. Dilute with water and mop up if possible. If spillage is large, contain spillage in a suitable container. If spillage is large and place in an appropriate waste disposal container. For specialist advice in an emergency call CHEMREC 0800 425 459. If additional hazard information is required, refer to the Safety Data Sheet. For a copy please go to www.elanco.co.nz.

DISPOSAL
Refer to the instructions of the product by user. Otherwise dispose of product and packaging in an approved landfill or other approved facility.
