TERMS & CONDITIONS:

By submitting my rebate, I agree to the Terms and Conditions at elancostatements.com/en/terms-of-use/elanco-com and acknowledge Elanco's Privacy Notice at elancostatements.com/en/privacy/elanco-com.

Offer valid for purchases dated 1/1/2026 – 12/31/2026. Claims must be received within 90 days of purchase date. Limit 5 rebates per brand per household for product(s) purchased in 2026. This offer may not be combined with any other offer. Elanco reserves the right to amend, substitute or withdraw this offer at any time without notice.

To redeem your rebate, an original licensed veterinary invoice showing product(s) purchased from your veterinary clinic is required. Clinic information, product purchase(s) and date of purchase(s) must be clear and legible. Elanco retains the right to request additional information when processing a rebate submission request. All rebate claims are subject to Elanco's final review and approval. Non-compliant materials will not be honored or returned. Offer not valid for product(s) purchased through retailers.

Offer valid only in US and US Territories. Void where prohibited or restricted by law. All federal, state and local laws and regulations apply. Fraudulent submission of multiple requests and/or providing false information disqualifies any rebate request and could result in federal prosecution under mail fraud statutes (Title 18, USC Sections 1341 & 1342) as well as applicable state laws.

For mail-in submissions, send the completed rebate form (name, address and offer code) and a copy of your veterinary invoice to:

INDICATIONS

Zenrelia is a prescription medication used to control itching and inflammation associated with skin allergies for dogs over 12 months of age.

IMPORTANT SAFETY INFORMATION

See package insert including the Boxed Warning. For full prescribing information speak with your veterinarian, call 1 888 545 5973 or visit www.elancolabels.com/us/zenrelia.

WARNING: INADEQUATE IMMUNE RESPONSE TO VACCINES. Based on results of the vaccine response study, dogs receiving Zenrelia are at risk of an inadequate immune response to vaccines. Discontinue Zenrelia for at least 28 days to 3 months prior to vaccination and withhold Zenrelia for at least 28 days after vaccination. Dogs should be up to date on vaccinations prior to starting Zenrelia. Do not use in dogs less than 12 months old or dogs with a serious infection. Dogs should be monitored for infections because Zenrelia may increase the chances of developing an infection. Neoplastic conditions (benign and malignant) were observed during clinical studies. The most common side effects were vomiting, diarrhea and tiredness. Zenrelia has not been tested in dogs used for breeding, pregnant, or lactating dogs and has not been evaluated in combination with glucocorticoids, cyclosporine, or other immune suppressive drugs.
